

FITTING SIZING AND REPLACEMENT LINERS

TO FIND YOUR HELMET SIZE

Place the tape measure around your head just above your eyebrows. Convert the resulting measurement in inches to the sizes listed in the chart below. It is important to get the right fit for your helmet, so trying one on is the best way to make sure the helmet fits properly. Each helmet style will fit a bit differently, but the variety of liner sizes for the IR4G and XLT should give you options to get the most comfortable shell and liner combination for the best fit.

HELMET SIZE CHART

Centimeter	50	51	52	53	54	55	56	57	58	59	60	61

XLT Liner

IR4G Liner

REPLACEMENT LINERS MSRP \$29.95

The IR4G and XLT Moisture wicking liners are sold separately. Now you can have an extra liner in your favorite size when washing the liner that comes with the helmet. Both liners are available in 8 sizes, and 4 different thicknesses, to provide a truly comfortable and custom fit. Secured with Hook & Loop attachment system for a firm hold.
